

education

In its bid to produce quality professionals, Siksha O Anusandhan University (SOAU) is redefining the method of knowledge creation and dissemination by combining the best of two models (scientific and technological) with the highly engaged academic and social environment of the university. Its founder visionary Prof. (Dr) Manoj Ranjan Nayak, has brought SOAU a long

Surging ahead

way. SOA Society has completed 10 years towards promotion of quality education. "The objective of SOAU is to promote professional education, research, training and development in engineering, management, computer science, medical science etc," said SOAU chairman Dr Nayak. One

of the youngest varsities of the country, SOAU has become an advanced hub of knowledge in India. Besides imparting the best available technical education, SOAU has been trying to boost the morale of its students, faculties and the society at large by doling out the message that 'Character is destiny'.
